PROFESSIONAL SUMMARY

Computer Science and Engineering student at PW Institute of Innovation, Pune, with a strong focus on building practical AI and full-stack software products. Proven in competitive environments — achieved 3rd Runner Up at India's premier AI Innovation Challenge (Yophoria 2025, Delhi). Adept at taking projects from idea through to deployed product, combining strong programming foundations with product thinking, fast iteration, and clear technical communication. Actively seeking internships in AI, full-stack development, or product engineering.

EDUCATION

Bachelor of Technology — Computer Science and Engineering

2025 – Present

PW Institute of Innovation (PWIOI), Pune, India

- Focusing on applied AI, full-stack development, and practical product engineering.
- Core modules: Data Structures and Algorithms, Object-Oriented Programming, Database Management Systems.

Senior Secondary Education (Class XII — Science)

2023 – 2025

Gurukul Shikshan Sansthan Sr. Sec. School, Sikar, Rajasthan

- Completed senior secondary with Physics, Chemistry, and Mathematics.
- Completed two years of intensive JEE preparation at Matrix Institute, Sikar — developed strong analytical and problem-solving skills.

TECHNICAL SKILLS

Programming Languages:	Python, C, C++, Java
Web & Full-Stack:	HTML5, CSS3, JavaScript, React, Node.js, FastAPI, Firebase
Databases:	PostgreSQL, MySQL, IndexedDB, LocalStorage
AI & Data:	OpenAI API, Power BI, Data Analysis, Dashboarding
Tools & Platforms:	Git, GitHub, VS Code, GSAP, Lenis, Linux, GitHub Pages
Concepts:	OOP, DSA, REST APIs, Client-Side Architecture, Agile Development

PROJECTS

Personal Portfolio Website

2025

Cyberpunk-themed static portfolio | HTML5, CSS3, JavaScript, GSAP, Tailwind CSS, Lenis | Live:

radheshyam-cod.github.io/Portfolio | GitHub: github.com/radheshyam-cod/Portfolio

- Engineered a high-performance single-page portfolio featuring GSAP scroll-triggered animations, 3D hover effects, and parallax micro-interactions.
- Integrated FormSubmit for a zero-backend serverless contact form and Lenis for smooth scroll experience.
- Deployed as a fully static site on GitHub Pages, achieving zero-latency loading with no server dependency.

Browser-Based EVM + VVPAT Simulation

2025

National E-Voting Portal (Civic Tech) | HTML, CSS, JavaScript, IndexedDB, Chart.js | Live:

radheshyam-cod.github.io/Online-Voting-system | GitHub: github.com/radheshyam-cod/Online-Voting-system

- Engineered a fully client-side simulation of an EVM and VVPAT system, replicating real-world voting workflows using hashed EPIC-style voter IDs for strict one-vote-per-voter enforcement.
- Implemented persistent vote tracking using IndexedDB and LocalStorage, and built a Chart.js-powered live results dashboard for educational use.

Fin-Mate — AI Personal Finance Coach

2025

Mumbai Hacks 2025 Hackathon Build | Python, FastAPI, OpenAI API, React, Firebase

- Built an AI-powered personal finance coach for students, freelancers, and early-stage earners with irregular income, using OpenAI models to analyse spending behaviour and generate adaptive budgets.

- Delivered proactive spending alerts and automated monthly financial report generation within strict hackathon time constraints.

HACKATHONS & COMPETITIONS

Yophoria Innovation Challenge 2025 — 3rd Runner Up

Oct 2025

YoLearn.ai × GLA University, Greater Noida (Delhi) | AI Product Design Track

- Secured 3rd Runner Up position at India's premier AI Innovation Challenge, competing against teams from universities across the country.
- Recognised for creativity, execution quality, and contribution toward solving real-world AI challenges in the AI Product Design category.

HackXios 2k25 — AXIOS × AWS

Dec 2025

Team Money Mind | AWS-backed Hackathon

- Participated in an Amazon Web Services-backed hackathon, demonstrating team collaboration, innovation, and rapid problem-solving under competition conditions.

Mumbai Hacks 2025

2025

National Hackathon

- Built and shipped Fin-Mate, a full AI finance product, end-to-end within hackathon time constraints.

CERTIFICATIONS & TRAINING

Cyber Job Simulation — Deloitte (via Forage)

Completed: September 5, 2025 | Practical cybersecurity tasks in a simulated Deloitte environment.

Google Gemini Academy — Transforming Higher Education with AI

Issued by: Google × Saamarthya Teachers Training Academy of Research (STTAR) | Completed: December 17, 2025

Cybersecurity Course — Skill India (Tech Mahindra Foundation)

Issued via Skill India Digital Hub (NSDC) | Completed: December 10, 2025 | Duration: 10 Hours

Operating Systems Bootcamp (5-Day) — DevTown

In collaboration with GDG VIT-AP & Microsoft Student Chapter MSIT | Completed: February 8, 2026

ADDITIONAL INFORMATION

Languages:

Hindi (Native), Rajasthani (Native), English (Professional)

Availability:

Immediately available for internships. Open to remote, hybrid, and Pune / Jodhpur-based roles.

Interests:

AI Product Engineering, Open Source Contribution, Competitive Programming, Full-Stack Web Development
